Main effort is in establishing a non-commercial open-access community FM radio station. Radio, they feel, is simpler for people to use and more effective than video. For the past year WW has used its 1/2" videotape equipment (2 Sony portapaks, 2 Sony 3650's) to give access "to interested groups with resulting tapes often appearing on Grand River TV's Channel 12. In January CHYM's FM station made an hour available on Sundays for WW's community programming, but this only meant that the group was dependent on outside media hospitality for access. For about a year WW has been laying the groundwork for a publicly owned FM station. If a licence is granted

the facility will be available to anyone who cares to make a program . . . no commercials, no profits. . . . The problem is to write an application that will convince the CRTC to open its doors to a new concept of programming. The station would be the first of its kind in Canada, requiring major revisions of the Broadcast Act . . ." (*Kitchener-Waterloo Record*, May 25, 1972) They are presently installing their radio studios.

With a grant from the National Film Board of Canada they developed an organization to foster individual expression with video amongst French Canadians. They have a production facility which provides equipment to individuals; a theatre for viewing tapes; and a library where people can come, take out a tape, and watch it on a cassette machine. Their tapes are available on Sony reels or cassettes.
