We are accepting subscriptions only through issue number 6 (Winter 1971). We're not soliciting subscriptions beyond then because we feel it's possible that Radical Software as print may have served its function and we'll want to do it solely as videotape. But reader feedback will determine need.

You can start your subscription with any combination of back, present, or future issues. How many and which determine how much money you send us.

Issues number 1 and 2 were @\$1.25. This issue (Spring 1971) is @\$1.50. While the price may rise again in future issues, we will honor any subscriptions sent in now at the current rate.
