The Center for New Corporate Priorities is a radical corporate action group which does research but with its action-application in mind. For example, they've taken research from NACLA, Pacific Studies Center, etc. and expanded it and moved with it on a legal non-violent trip. Their objectives are "to understand the corporate decision-making process and why it usually results in policies contrary to the public interest, to design concrete alternatives for short-term change of corporate policy and to educate the public that long-term change demands substantially different attitudes toward our economic, social and political structure." Contact at the center, Jim Lowery, 304 So. Aromoore, Suite 101, L.A., Calif. 90020.

David Graham has proposed a project to "research new ideas emerging around the movement toward religions. Since the people involved in the research will be initiators of many of the ideas, the team itself defines the movement they are researching. Output will take the form of reports on work in progress" (to be made available in several media.) A priority of the project is a video-parlor in the town of Wickenburg, Arizona which would output the information from the research. We don't know the status of the project but you can reach him at P.O. Box 1176, Wickenburg, Arizona 85358.

Resource Accounting and Exchange "is a need idea designed to better effect exchange of information among people who are able to share resources. Assuming that people know what they have/will have/can share and realize that through co-operation with present and potential resources lies the key to everyone's survival." It's an idea of a network which becomes self-sustaining through mutual interest and distribution - an alternative problem-solving process. 2 East 2nd. Street, New York, N.Y. 10002.

Art Hicks is trying to get together an idea using surplus telephones and homemade acoustical couplers to be used over long distance phone lines to allow underground papers to transmit news and whatever over the phone without a police audience." ...and while your trucking thru tune in to Radio Free Chicago at 97.1 FM, which features special programs designed to serve the needs of anyone struggling to survive in the city. 3512 N. Lincoln, Chicago, Ill. 60614.

Domebook 2 has arrived. For a Manhattan resident, it's a wonder fantasy of sun domes, elliptical domes, portable pillow domes, scrounged domes, all domes. I wouldn't begin to build without it.
