

Gene Youngblood's new book, *The Videosphere*, about the evolutionary, ecological, biological, social, political, technological and esthetic implications of: (1) cable television, (2) portable video systems, (3) program retrieval (video-cassette and disc) systems, (4) time-shared computer utilities, and (5) the domestic satellite system, considered not as separate technologies but as components of a single unified system, a "decentralized feedback communication network", will be published soon by E.P. Dutton, N.Y.

#### FOR SALE:

Videoworks, part of the Department of Landscape Architecture at the University of Arizona (Tucson, Arizona, 85721), is creating a video center for students in environmental design to use 1/2 inch video equipment for communication, presentation and community involvement. Videoworks is interested in securing video programs for exchange and a descriptive list of your programs.

MATRIX, an international video meet and tape exchange fest, took place in Vancouver from January 17th through January 21st. Topics of discussion at the meeting included alternate distribution systems and outlets for video information barriers to international exchange (censorship, copyright, customs, etc.), new developments in video technology, corporate media (broadcast TV, cable, satellites, data and information systems, space and 'defense' research, cassettes and cartridges, etc.) and effective video alternatives.

For information about the outcome of the video meet, contact MATRIX Video Exchange, 358, Powell, Vancouver 4, B.C., Canada. Tel. - (604) - 682 - 5621.

The Open Channel - Newsletter dedicated to the institutionalization and expansion of public access television. Published quarterly - free - 220 West 42nd Street, New York, New York, 10036
