VIDEOGRAPHE

Hitch-hiking (in English) by Frank Vitale (1972)—Un in-
ventaire perspicace de la liberté dans le monde organisé,
structuré des grandes villes. Par la biais d'un voyage sur le
pouce, on pénètre peu a peu dans ce qui semble etre
l'envers du quotidien, mais on le trouve à la traversée
d'une frontière, par une bible dans un motel et les éternels
clichés de l'American way of Life. L'oeil impartial de la
caméra constate simplement, avec poésie et humour que,
pour retrouver une certaine liberté, il faut enfermer les lois
des hommes.
Le Temps D'Une Prière (by Jean-Claude Germain, Jacques
W. Benoit, 1972)—Scénario de Jean-Claude Germain a
partir d'extraits de morceaux de pieces de Sauvageau,
Garneau, Germain.
